

WASATCH UPDATE

PRESS RELEASE

2009

ABOUT WASATCH

Wasatch Product Development is a full service cGMP Product Development Laboratory. Our core competencies focus in the formulation and manufacturing of Skin Care, Hair Care, Dental Care along with unique, customized and proprietary products for the Personal Care Industry. We also specialize in treatment-oriented products.

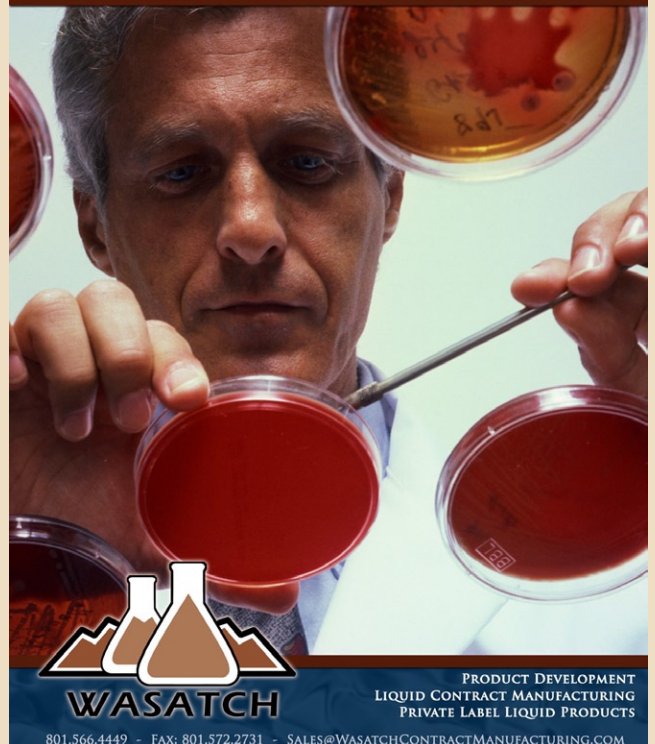

PRODUCTION & OPERATIONS

Wasatch Product Development manufacturing tanks have a wide variety of mixing capabilities including turbine, high-shear and counter-rotating side-sweep. All of our tanks are jacketed and have vacuum capability. Our Manufacturing Department offers the following capabilities:

- Complete processing of liquids, creams, lotions, pastes, ointments and gels
- Handling of products and viscosities up to 1,000,000 cps.
- Storage facilities for both raw materials and finished bulk product
- Dedicated facilities for explosion-proof processing of alcohol-based products
- Facility for bulk alcohol storage
- Validated DI water system for USP grade purified water
- Manufacturing equipment capacity ranges from 30 gallons to 4,500 gallons

Working within a FDA and cGMP environment, Wasatch Product Development ensures the quality of ingredients we receive. Wasatch Product Development can research alternative raw materials to lower your costs. Not only do we test all raw materials, WIP and Finished Goods within our state-of-the-art lab, we also get third party validation of clean Raw Materials, WIP and Finished Goods. We take this extra step and incur the cost ourselves to protect our customers. Our chemical weighing area sets the industry standard for compliance and precision.

MAKING IT HAPPEN

Wasatch Product Development believes in investing in our partnerships. That is how we have become a leader in Liquid Contract Manufacturing. We continually improve our facility, practices and procedures in addition to evaluating our processes. Our product specialties include:

- Dentifrice—toothpaste, mouthwash, whitening products
- Topical—anti-aging skin care, hair care, health and beauty care items, liquid soaps

Wasatch Product Development also manufactures a variety of other product types. From scale-up to site transfers, Wasatch can handle the production of your most complicated over-the-counter (OTC) and consumer commodity products.
